

Client: FAT FACE

Saved after audit:

£5,240,000

We have worked with Fat Face for some time and achieved fantastic results, reducing costs and improving the quality of service they receive from suppliers. Synergy have become a fully integrated part of the Fat Face team and in addition to saving substantial sums of money, have genuinely added value in many areas. As often happens we started off by conducting procurement reviews on a limited number of commodities. Having initially demonstrated our competence, cut costs and improved service levels on all fourteen specified commodities, we have now conducted over seventy cost reduction programmes. To date, we have delivered savings in excess of £5.2m.

“We were immediately impressed by Synergy’s knowledge and expertise across all categories of spend. They have saved us over £5m and made a massive difference to our organisation”.

Will Crumbie, Finance Director, FAT FACE
