

NOTICE TO EXPORTERS FOR EGYPT

I confirm that Norfolk Chamber of Commerce has informed me:

- That for Egypt a European Certificate of Origin and invoice must now be certified and legalised by the Egyptian Embassy.
- That consignments covered by a European Certificates of Origin and invoice that has not been legalised could be impounded/confiscated by Egyptian Customs Authorities.
- That consignments may be delayed for customs clearance if a European Certificate of Origin and invoice has not been certified and legalised which could result in hefty fines/demurrage being levied.
- That by not having the certificate of origin and invoice certified and legalised by the Egyptian Embassy I accept full responsibility for any difficulties encountered.
